N. C. STATE NEWS

A Digest of Everything Worth
Knowing About Old North
State Folks and Things

—Twelve hours after he had shot her in a lover's quarrel, Grover Gordon, a youth of Washington, gave a transfusion of his blood to save the life of Mrs. Florence Robinson of the same city. Mrs. Robinson was separated from her husband sometime ago.

—Dr. E. Reid Russell, one of the leading eye, ear, nose and throat specialists of the South, died recently at Asheville following a small scratch on his knuckle, which, becoming infected, developed into blood poisoning, and caused his death in less than a week.

—Lieut. Belvin W. Maynard has postponed his one-stop transcontinental air flight, which was to have begun last week, until early in December. Maynard plans to make a flight from Minneapolis to San Diego, with a single stop at Dallas, Tex.

—Of a total of 24,000 diseases of all kinds in the State for a year, the annual number of venereal diseases is 12,000, according to Dr. F. M. Register of the State Board of Health. A State-wide campaign is now being waged in an effort to stamp out sex diseases.

—Fifteen new moving picture outfits and 150 new films have recently been purchased by the State Bureau of Community Service, for use in the educational campaign the Bureau is carrying on in a number of North Carolina counties.

—John Poythress of Henderson has been fined \$1,000 for bringing sixty suitcases of bonded whiskey into the State on a railroad train. The fine is in the nature of a compromise, since there were questions of jurisdiction involved. Poythress claims the warrant for his arrest was read to him in Virginia.

—Tobacco sales on the Winston-Salem market from the first of September, when the market opened, to the last of November amounted to 26,696,454 pounds, bringing \$13,756,000. About thirty million pounds will be sold there by the close of the season, as compared with forty million pounds for last year.

—An automobile accident about three miles from Plymouth a few days ago resulted in the death of Leon Spruill and the serious injury of two men, all of Roper. The car, which is said to have left Plymouth at a high rate of speed, went into a ditch and turned completely over. Spruill's neck being broken.

S. B. Underwood, Superintendent of

Schools in Pitt county, has been elected president of the North Carolina Teachers' Assembly for the coming year, succeeding Dr. N. W. Walker of Chapel Hill. Mr. Underwood is well known in Elizabeth City, having married a sister of Dr. E. W. Lister of Weeksville.

—After he had been missing from his home for a week, the remains of L. D. Knight, 60 years old, who lived near Kinston, were found a few days ago by a party of hunters. There were no marks upon the body to indicate foul play, and it is supposed that he died of heart failure.

—The 36th annual session of the North Carolina Teachers' Assembly was held at Raleigh on Wednesday, Thursday and Friday of last week. More than 1500 teachers were present, and the Assembly is declared to have been the most successful from every standpoint that has ever been held in the State.

—The torpedo boat destroyer Parrott, which was launched at Philadelphia last week, was named after the late Lieutenant-Commander George F. Parrott, of Kinston, who lost his life when the ship which he was to have commanded collided with a big British steamer in the English channel, and was sunk, shortly before the signing of the armistice.

—At the Friday meeting of the North Carolina Teachers' Assembly held at Raleigh last week, resolutions were passed endorsing the movement for World Prohibition. It was further resolved that instruction be given regularly through the schools as to the nature of alcoholic drinks and other narcotics, and their effects upon human system.

—Charged with violating the rules of the Wake County Juvenile Court, J. H. Foy, father of 12-year-old James Foy who is held by the police on charges of attempting to wreck a railroad train at Raleigh, will be tried for responsibility for the acts of his son. The boy is said to be the leader of a gang of four who are suspected of a number of recent burglaries in the city.

—Claiming that upon two occasions he had taken her to an isolated spot near the city for immoral purposes, Carrie Fields, a young white girl of New Bern, brought suit against Walter Brinson, a well to do foundry man, in the sum of \$25,000, claiming that he is the father of her child. The jury awarded her damages in the amount of \$3,800. Brinson has taken an appeal.

—Statistics given out by the Secretary of the chamber of commerce of Mt. Airy show that 21,500 barrels of apples have been shipped from that city during the present season, while reports indicate that the total crop for the section this year will amount to 27,000 barrels, a yield about 40 per cent below normal.

Camel CIGARETTES

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways! Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your taste!

You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper covered carton. We strongly recommend this carton for the home or office, supply or when you travel.

R. J. REYNOLDS TOBACCO COMPANY
Winston-Salem, N. C.

The shortage is said to be due to the late frost last spring.

—The deepening of river channels and harbors at various seaport cities of the State, notably Wilmington and Morehead City, has resulted in the lowering of freight rates to and from such cities. Boats drawing seven feet of water may now go up the Cape Fear river 71 miles above Wilmington, whereas before the channel was deepened they could only go 39 miles.

—The law providing that no State money be paid to county fairs allowing gamblers to operate games of chance permitting disreputable shows will be fully enforced next year, if the present plans of the North Carolina Fair Committee are carried out. It is thus hoped to lift the fairs from the class of the ordinary carnival, and make the moral agricultural and commercial expositions. The 1919 fair season for the State is practically closed, 225 fairs having been here.

—The committee on public health at the University of North Carolina is strongly recommending that county hospitals be built throughout the State in all counties having a population of 15,000 or more, and that counties with smaller populations be grouped together, with one hospital for several counties. It is further recommended that whole time health officers and nurses be employed, that sanitation and hygiene be effectively taught in all State controlled schools, by teachers specially trained for such work, and that wholesome recreation be provided, particularly for rural school children.

It's the wise housewife who serves

Postum Cereal

instead of coffee. For where coffee sometimes disagrees and leaves harmful after-effects, Postum is an absolutely healthful cereal drink. Made of roasted wheat blended with a wee bit of molasses.

The extraordinary flavor of this beverage resembles that of the finest coffee—pleasing to particular tastes.

Two sizes, usually sold at 15c and 25c.

Made by
Postum Cereal Company, Battle Creek, Michigan

The Wonders of America

By T. T. MAXEY

THE KEOKUK DAM.

THE Mississippi river has been harassed! A genius named Cooper (Hugh L., late of General Pershing's forces in France) turned the trick.

He built a concrete dam, 42 feet wide at the bottom, 29 feet wide on top and about 53 feet high, across the river; a powerhouse in which will be housed thirty 10,000 horsepower turbines, each with its generator weighing 350 tons; a lock 400 feet long and 110 feet wide (the width being the same as the locks in the Panama canal, but the lift is higher); the largest dry dock (at the time) in fresh water and an ice fender.

It was necessary to acquire about 25,000 acres of land, build 50 miles of roads and streets and clear 5,000 acres of brush and timber. More than 1,300 property owners were dealt with. Litigation was resorted to in only about ten cases. Two hundred and eighty-nine tons of dynamite were used. Construction work required about 800,000 barrels of cement, 7,500 tons of steel, 300,000 cubic yards of sand, 3,500,000 pounds of structural steel and 20,000,000 feet of lumber.

Now, the "Father of Waters" turns the machinery that lights cities, runs street cars and operates factories. Sixty thousand horsepower of electricity is used in St. Louis, 141 miles away. Sufficient power is generated to light a boulevard from Portland, Me., to Los Angeles, Cal., using 48 candle-power lamps set 100 feet apart. Construction started January 5, 1917. The first current reached St. Louis July 1, 1918. The total cost of the plant was \$26,000,000.

Heat and Tuberculosis.
James B. Murphy and Ernest Sturm (Journal of Experimental Medicine) subjected mice to heat and a week later inoculated them with a strain of tuberculosis virulent for mice. These animals displayed a greater resistance than normal.

New IDEAL-Arcola Radiator-Boiler

A house or a flat is sadly handicapped now-a-days unless it is comforted cheerily throughout with this IDEAL Radiator heating outfit.

The only way to change a house or a flat into a genial, cozy, healthful, cleanly HOME, making every nook and corner warm and the floors and halls free from chill spots and drafts is with this wonderful new invention—the IDEAL-Arcola Radiator-Boiler.

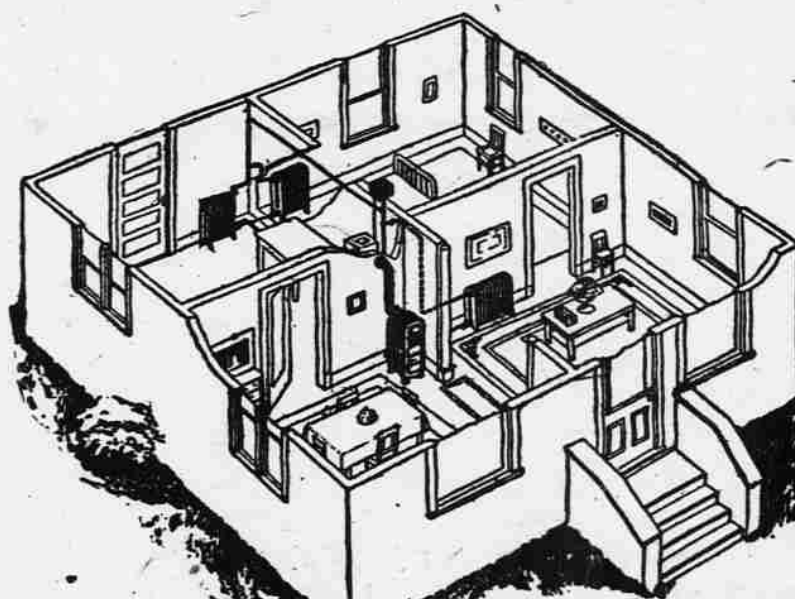

The IDEAL bargain in low-cost heating!

The IDEAL-Arcola takes the place of a parlor-stove, radiating its soft, June-like warmth to the room. The IDEAL-Arcola is hollow-walled, the space being filled with water, which as it is heated circulates over and over, constantly, through piping to AMERICAN Radiators set in adjoining rooms. ALL the rooms are therefore warmed ideally and from the one fire. There is no coal-waste!

Gives utmost comfort and coal saving

No cellar is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat all the rooms, buy a small size IDEAL-Arcola and one or two radiators, and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Give your home and your annual coal-bill a square deal—write today

Simple way of heating a four-room cellarless cottage by IDEAL-Arcola Radiator-Boiler and three AMERICAN Radiators

Any Fitter will furnish in sizes to suit rooms and climatic conditions.
